PROFESSIONAL SUMMARY

Information Systems graduate from Addis Ababa University (June 2026; CGPA 3.37/4.00) with foundational knowledge of IT systems, networking, databases, web application development, and cybersecurity. Academic and team projects have provided experience with digital workflows, data-backed applications, and collaborative development. Brings analytical problem-solving, attention to detail, and a strong willingness to learn and contribute to reliable technology services.

TECHNICAL SKILLS

IT systems: Windows, Ubuntu/Linux, basic system and connectivity troubleshooting, VirtualBox virtualization

Networking & security: Networking fundamentals, cybersecurity fundamentals, network/traffic analysis, defensive monitoring concepts, controlled lab environments

Software & data: JavaScript, React, Next.js, Node.js, Express.js, MongoDB, SQL fundamentals, REST API concepts, Git/GitHub

Professional strengths: Analytical thinking, careful instruction-following, attention to detail, teamwork, documentation, and task organization

EDUCATION

BSc in Information Systems | Addis Ababa University | Graduated June 2026 | CGPA: 3.37/4.00

Relevant academic foundation: Data Science, database systems, networking, software development, and information systems

PROJECTS

AAU Dormitory Management System - Academic final-year project focused on digitizing student dormitory applications, room allocation, occupancy visibility, and administrative workflows, with attention to role-based access and data handling. **Technologies:** React, Node.js, Express.js, MongoDB, Vercel.

Personal Portfolio Website - Built a personal portfolio website presenting my profile, technical skills, projects, certifications, and contact information in one place.

Cybersecurity Lab Practice - Through guided training exercises in controlled virtual environments, gained exposure to network traffic and log review, defensive monitoring, basic vulnerability assessment, web application security, and incident-response workflows.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Foundations of Artificial Intelligence - Six-week online training; completed 6 Apr-24 May 2026. Placid Solutions and Consulting, in partnership with Florida University Southeast, School of Professional Studies, and InnoLearn Systems.

Cisco Networking Academy - Cybersecurity Fundamentals - Credly badge; **Networking Basics** - Credly badge

Qiyas - Cybersecurity & Digital Risk Management - Ongoing training since 18 May 2026, including structured cybersecurity lab exercises and exposure to network/traffic analysis, defensive monitoring, and incident-response workflows.

LANGUAGES

Amharic: Native | **English:** Working proficiency
